Notice is hereby given that the Oregon Short Line Railroad Company, by its chief engineer, William Ashton, whose postoffice address is Salt Lake City, Utah, made application in accordance with the requirements of Chapter 108, Session Laws of Utah, 1905, to appropriate ten (10) cubic feet per second of water, which rises Sand Ridge Cut on the Oregon Short Line Railroad in Weber County, Utah. Said application was approved by the State Engineer, March 14, 1907, and two years allowed for the completion of the works necessary for the appropriation of said water as contemplated by said application. The time has since been extended to September 1, 1909. Said Oregon Short Line Railroad company, by its chief engineer, William Ashton, now makes application in accordance with the requirements of Section 1288-24, Chapter 62, Session Laws of Utah, 1909, to change the point of diversion of said water, by conveying it to the Weber River through an open ditch, for a distance of 1,650 feet and allow it to flow down the natural channel of said river, to a point which bears north 32 degrees east 425 feet distant from the southwest corner of Section 29, Township 6 north, Range 1 west, Salt Lake base and meridian. From this point the water will be diverted and conveyed by means of a pumping plant and two six-inch cast iron pipes, for a distance of 125 feet and there used during the period and for the purpose above specified. The application was designated in the State Engineer's office as No. 1005.
